Two-weekly report

Group Number: **6**
Name: **Dinh, Huu Phuc**
Email: huu.dinh@stud.fra-uas.de
Project: **3**
Matriculation Number: **1104950**

1. **What have I accomplished since the last Daily Standup?**

For the project:
I have successfully extracted optimized data using PromQL code and created optional metrics for CPU usage, Memory Usage and Data Bandwidth.
I have also extract .csv files as dataset, then looking for supervised model algorithms that we can build to yield the result sufficiently.

For the research paper:
I have created the format and the structure for our team's final report on Overleaf. Besides, I read some papers in order to add theory background for the project (Introduction, discussion of migration, types of migrations, ..)

2. **What will I accomplish until the next Daily Standup?**

Finish the model and write the final report.

3. **Do I anticipate any obstacles and can the team help me with them?**

Not yet.
